## / PROFILE

Developer who incorporates continuous improvement in her daily work as essential to fully meet the objectives defined individually and as a group. Proactive and creative.

I focus on web applications but I am open to learn what is necessary to fulfill my functions. I have experience with SCRUM methodology and techniques oriented to optimal user experience (UX).

## / EMPLOYMENT HISTORY

### >> Developer Full Stack , Program MisiónTic 2022

May 2022 | Dec 2022

Cali

- My work is focused on JavaScript technologies
- Development of web applications, APIS (REST APIS) using mainly Java
- Database (MySQL and MongoDB) and Oracle Cloud servers for solutions.
- I led two web application projects, with back-end technology (VisualCode/SpringBoot) and front-end with JavaScript and CSS (React) application that needed functions required by a user to create and manage data (CRUD) and get reports, where it increased in a great percentage of effectiveness working as a great team applying best practices in software development such as Git and SCRUM.

### >> Designer Architect , Hábitat Vivo

Aug 2021 | May 2022

Bogotá

My constant learning led me to lead a team of designers to make an improvement in the frontend of the main page, where using Tailwind CSS helped in a percentage to the user experience, (UX/UI) an interactive design, useful, credible, desirable and accessible, grew by 30% the visits to the page, making users through calls to action (CTA) to make it easier to follow the steps and achieve a sale and go on to have twice as many visits to the website in the week.

## / EDUCATION

### >> Developer Job Technician, Universidad Autónoma de Bucaramanga | UNAB

May 2022 | Dec 2022
